PROFESSIONAL PROFILE

Civil Engineer with 13+ years of direct international experience in construction execution, site management, and project coordination across solar power, wind power, oil & gas, industrial, and infrastructure projects. Proven record of executing civil works on schedule, managing site resources, coordinating subcontractors and field teams, and ensuring construction activities comply with approved drawings, specifications, and project timelines. Strong direct execution experience in foundations, concrete and structural works, roads, drainage, buildings, WTG foundations, tank foundations, grouting, earthworks, and overall site construction execution. Recently relocated to Jubail, Saudi Arabia, and holds a transferable Iqama.

EDUCATION

BSc. Civil Engineering — Sir Syed University of Engineering & Technology (2009 – 2012)

HSC – Pre-Engineering — Shaheen Public Higher Secondary School, Mirpur Mathelo (2006 – 2007)

Secondary School Certificate (SSC) — Shaheen Public Higher Secondary School, Mirpur Mathelo (2004 – 2005)

CORE SKILLS

Civil Construction Execution • Site Execution & Management • Construction Planning & Scheduling • Resource & Manpower Planning • Subcontractor & Vendor Coordination • Method Statements & Work Procedures • Concrete & Structural Works • Tank & WTG Foundations • Roads & Pavements • Stormwater & Drainage • Earthworks & Site Preparation • Progress Monitoring & Reporting • Client / Contractor Coordination • AutoCAD • MS Office • 2D/3D Modelling • Structural Analysis

WORK EXPERIENCE

Construction Support Inspector (CSI) — SGS Pakistan (Pvt.) Ltd.

Mar 2024 – Present

Project: United Energy Pakistan Limited (UEPL)

- Support execution of civil construction activities on site, verifying compliance with project specifications, approved drawings, and regulatory requirements.
- Coordinate with project managers, engineers, contractors, and site teams to resolve execution issues and keep construction activities on schedule.
- Monitor field progress and maintain execution records, inspection logs, and reporting documentation.
- Review and verify contractor submittals, RFIs, and inspection requests for compliance prior to approval.
- Consult with QA/QC and HSE teams to ensure inspection and testing activities meet project and client quality standards.

QA/QC Assistant Manager — Scatec ASA

Oct 2022 – Jul 2024

Project: 150 MW Solar Power Plant – Sukkur, Pakistan

- Coordinated execution of civil works for a 150 MW Solar Power Plant, aligning site activities with project specifications, approved drawings, and construction schedule.
- Worked closely with high-voltage EPC contractor Siemens to align civil execution with engineering documentation and project milestones.
- Tracked construction progress, managed site instructions, and ensured permanent-material records supported timely execution and handover.
- Reviewed and approved ITPs, method statements, and material submittals prior to construction execution.
- Conducted quality audits and closed out NCRs to maintain compliance with the project quality management system.

Construction Support Inspector (CSI) — SGS Pakistan (Pvt.) Ltd.

Jun 2021 – Oct 2022

Project: United Energy Pakistan Limited (UEPL)

- Supported execution of construction activities and coordinated corrective actions with project and construction teams to keep works progressing.
- Assisted project managers, engineers, and contractors in maintaining execution pace and meeting project timelines.
- Reviewed contractor daily and weekly progress reports and flagged discrepancies against the baseline schedule.

- Participated in site walkdowns and joint inspections with client and consultant representatives.

Senior Site Engineer — Hydro China International Engineering Ltd. (EPC)

Mar 2019 – May 2021

Project: Nasda Wind Power Project – Jhampir, Pakistan

- Directed execution of civil engineering activities for a wind power project, including foundation works and project layouts.
- Led civil execution teams on site, planned resource deployment, conducted risk assessments, and coordinated with clients and stakeholders to keep execution on track.
- Reviewed and validated survey and setting-out data to ensure foundation and structural works met design tolerances.
- Consulted with QC and safety teams to ensure works met client and regulatory compliance standards.

Site Engineer — Descon Engineering Limited

Apr 2015 – Mar 2019

Project: Cogeneration Power Project (Rahim Yar Khan) | Wind Power Projects (Yunus & Gul Ahmed, Jhampir)

- Planned and executed civil engineering activities in accordance with approved drawings, specifications, schedules, and project objectives.
- Directed execution of tank foundations, reinforcement, formwork, embedded items, concreting, grouting, stormwater/drainage, roads, and pavements.
- Managed subcontractor quantities and execution schedules, arranged inspections, prepared progress reports, and resolved technical queries on site.
- Executed cooling tower grey structures, substation/workshop buildings, switchyard areas, watchtowers, and WTG foundation works including reinforcement, anchor cages, concrete, and non-shrink grouting.
- Prepared daily progress reports and monitored site safety and environmental compliance during execution.
- Reviewed and validated as-built records and technical documentation for handover to client.
- Coordinated with QA/QC, HSE, and planning departments to align execution with the master project schedule.
 - *Cogeneration Power Project, Rahim Yar Khan — Mar 28, 2017 – Mar 13, 2019*
 - *Gul Ahmed Wind Power Project, Jhampir — Jun 1, 2016 – Mar 25, 2017*
 - *Yunus Wind Power Project, Jhampir — Apr 24, 2015 – May 28, 2016*

Engineer – Civil — Unique Engineering Pvt. Ltd.

Jun 2014 – Apr 2015

Project: FFC MPM – House Villas & College Buildings

- Executed and coordinated residential and educational building construction, directing subcontractors on site.
- Managed drawings, specifications, change records, and construction documentation to support execution.
- Supported site preparation, procurement, supplier coordination, safety monitoring, and quantity estimates during execution.
- Coordinated with architects and MEP teams to resolve interface issues between civil and services works.

Engineer – Civil — Unique Engineering Pvt. Ltd.

Aug 2013 – Jun 2014

Project: OGDCL – Civil Structures for Turbines & Filter Coalescer

- Executed civil construction and site works according to approved drawings and specifications.
- Coordinated construction teams and subcontractors and supported structural works, procurement, and safety activities during execution.
- Consulted with client representatives and consultants during inspection and material approval processes.

TECHNICAL EXPERTISE

Tank & WTG Foundations • Reinforcement / Rebar • Formwork & Concrete • Embedded Items • Non-Shrink Grouting • Stormwater & Drainage • Roads & Pavements • Earthworks / Excavation • Substation & Workshop Buildings • Switchyard Areas • Cooling Tower Structures • Construction Scheduling • Site Execution Reports • Progress & Resource Tracking
